1 Introduction

1.1 Structure of the cultural heritage appendices

1.1.1 The cultural heritage appendices for the Primrose Hill to Kilburn (Camden) community forum area (CFA3) comprise:

- baseline report (Volume 5: Appendix CH-001-003);
- a gazetteer of heritage assets (this appendix); and
- an impact assessment (Volume 5 Appendix CH-003-003).

1.1.2 Maps referred to throughout the cultural heritage appendices are contained in the Volume 5 Cultural Heritage Map Book.

1.2 Scope and coverage

1.2.1 This appendix provides descriptive information for the Primrose Hill to Kilburn (Camden) CFA3 relating to identified designated and non-designated heritage assets that lie within the following study areas:

- designated assets: land within the boundary required for constructing the scheme and within a 2km study area of it; and
- non-designated assets: land within the boundary required for constructing the scheme and within 250m of it.

1.2.2 Where appropriate, assets have been grouped e.g. clusters of listed buildings within conservation areas.

2 Information supplied

2.1.1 For each asset or group of assets the following information has been provided:

- unique identification (ID): e.g. PRM003;
- map reference: map number in Volume 5 on which the asset can be located;
- asset type: simple classification of asset type using following classes:
 - ancient woodland;
 - archaeology;
 - built heritage;
 - historic hedgerow;
 - historic landscape; and
 - settlement.
- name: either name used in designation record(s) or other identifiable name;
- description: short description of the asset and, where relevant, its setting;
- period: primary period relating to asset using period classifications from Volume 5 Appendix CH-001-003;
- designation: if applicable key designation or designations for some groups;

- grade: were applicable, grade of any designated assets;
- significance / value: score based on Scope and Methodology Report (SMR) classifications i.e. high, moderate, low, not significant (see Volume 5: Appendix CT-001-000/1);
- National Heritage List (NHL) reference: National Heritage List reference for Designated Assets; and
- historic environment (HER) reference: historic environment record reference, where relevant.

				Chalcot Gardens. A public square designated under the London Squares Preservation Act of 1931. Common frontage to a number of dwelling houses facing England's Lane.	Post-medieval	London square	N/A		DLO35369	MLO102507
				Numbers 108-150 Gloucester Avenue. Stuccoed three-storey over modern shop front and cart entry. Number 112-128 is a unified terrace dating from approximately the 1840s (mapped 1851) with heavy stucco late renaissance detailing. Good street value, and possibly significant for group value.	Post-medieval	Non designated	N/A		N/A	N/A
				Numbers 115-119 Regent's Park Road. This elevation is heavily modernised and gutted behind façade, plain stucco with modern shop fronts built circa 1840.	Post-medieval	Non designated	N/A		N/A	N/A
				Numbers 1-7 King Henry's Road, built circa 1860 (first mapped in 1873) brick, (some painted) Italianate picturesque with Italian-gothic details to bays and door. Bracketed gables, angle brick "modillions" to bays and string courses. Number 1 has a large annexe, probably re-roofed and dormered recently.	Post-medieval	Non designated	N/A		N/A	N/A
				Number 196 Regent's Park Road. End house on south side Italianate/eclectic brick and stucco semi.	Post-medieval	Non designated	N/A		N/A	N/A
				Number 36 (and electric sub-station) Gloucester Avenue. Although divided into two in detail it was clearly built as one structure probably around 1905 as it is a rail-related building. General style is Italian "Lombardian" Romanesque/Gothic. Evidently much altered for present use.	Modern	Non designated	N/A		N/A	N/A
				Numbers 44-46 Gloucester Avenue. These appear between the 1851 and the 1875 mapping and would seem to be late 1860s early 1870s by style. Three-storey front block plain stock brick with moulded brick string courses and cornice under panelled parapet, sash windows, triple windows over central carriage entrance. Original railings to area. It is basically a Georgian terrace with Victorian modifications	Post-medieval	Non designated	N/A		N/A	N/A
				Numbers 47-55 Gloucester Avenue. Early Victorian Greek/Renaissance style villas/semis, brick and stucco details. New ironwork, but all in good condition externally. Numbers 51-53 more purely Greek and all stucco, number 55 on end has elliptical bay window on St Mark's Crescent side and stack on Gloucester Avenue side over a window, so real flues are in curious scrolls either side, giving a slightly Jacobean look. This one has modillion eaves.	Post-medieval	Non designated	N/A		N/A	N/A
				Numbers 52-86 Gloucester Avenue. Early Victorian/ Georgian tradition, c.1840, mapped by 1851. Brick with stucco detail and ground floors.	Post-medieval	Non designated	N/A		N/A	N/A
				Numbers 56-63 Gloucester Avenue. These two terraces either side of St Marks Crescent junction are really part of that development of varied picturesque John Nash villas and terraces.	Post-medieval	Non designated	N/A		N/A	N/A

				Number 65 Princess Street/77 Gloucester Avenue/15 Edis Street. This is one development of brick terraces and a corner block made of two separate houses facing on to Princess Street. Date around 1860 mapped by 1875. Interest arises from use of brick and Italian Romanesque style. The facades facing Princess Street are a matching pair with integral shop fronts.	Post-medieval	Non designated	N/A		N/A	N/A
				Numbers 88-90 Gloucester Avenue. These are the end of terrace corner blocks on Dumpton Place. Number 88 is a plain brick building with stucco architraves less elaborate than the rest of the terrace. It has a quadrant corner and a shop front (now residential again). Number 90 is the Lansdown Pub. It is more old fashioned plain stucco, three-bay, and quadrant corner but has a good tiled frontage circa.	Post-medieval	Non designated	N/A		N/A	N/A
				Number 9 Regent's Park Road. Tall stucco house with first floor balcony and cast iron railings. This elevation has been thoroughly and insensitively modernised.	Post-medieval	Non designated	N/A		N/A	N/A
				Numbers 92-108 Gloucester Avenue. Terrace dating from circa 1840 (mapped 1851) very similar to numbers 52-86 but only one has original ground floor.	Post-medieval	Non designated	N/A		N/A	N/A
				Gloucester Avenue, gateway south of numbers 80-105. All this side now modern flats (Darwin Court) but boundary walls and gate piers survive and are from the large detached house that was here before 1916. Gate piers and wall probably date from circa 1840.	Post-medieval	Non designated	N/A		N/A	N/A
				Northbridge House preparatory school. Large stucco house in late Nash style but of much later date. Replaces earlier house. Post 1895 and pre-1916. Probably earlier (1830s?) garden wall.	Post-medieval	Non designated	N/A		N/A	N/A
				Waterside Place boundary wall. The Gloucester Avenue side of this new development uses the lower part of the preceding building as a boundary wall. This is shown in 1875 as a building along the canal and Gloucester Avenue around four sides of an internal court with something in the middle with steps.	Post-medieval	Non designated	N/A		N/A	N/A
				Gloucester Avenue Bridge over the Regent's Canal.	Post-medieval	Non designated	N/A		N/A	MLO73080
PRM002	CH-02-003b	Settlement	Eton	The area was owned by Eton College, which initially put the land up for sale for the construction of grand villas in the 1820s. Slow uptake and the development of the railway stopped the sale of the land until the 1850s. The area saw the construction of terraces in the late 19th century. Character of the area is defined by late 19th century terraces and mid-19th century villas.	Post-medieval	Conservation area	N/A	Moderate	N/A	N/A
				Numbers 1-14 Provost Road. Semi-detached villas of mid-19th century date. Two-storey with dormers and semi-basement of stucco with hipped slate roof and bracketed eaves. The ground floor windows have bracketed cornices. The buildings have pro-style porticos.	Post-medieval	Listed building	Grade II		1139086	MLO80310

				Church of St Saviour, circa 1855-56, by EM Barry; built by Lucas Bros. Alterations in 1883 by Ewan Christian. Chancel lengthened 1902 by WD Caroe.	Post-medieval	Listed building	Grade II		1342063	MLO80850
				Number 37 (and attached wall) Steele's Road. 1873, detached house and studio.	Post-medieval	Listed building	Grade II		1378862	MLO81020
PRMoo3	CH-02-003b-R1	Settlement	Belsize	The Belsize Conservation Area was formerly the location of the early post-medieval Belsize House and its attached parkland. The early/mid-19th century saw the area around the park slowly developed with construction of grand villas and terraces. Further development took place in the late 19th century removing the park and house. Later additions have altered the context of the conservation area but the area's character is largely of a 19th century planned townscape. The setting of the conservation area is of quiet residential streets.	Post-medieval	Conservation area	N/A	Moderate	N/A	N/A

PRM004	CH-02-004a	Settlement	Alexandra Road	Plans were drawn for the redevelopment of the Alexandra Road in 1966 by the Camden architects department. Construction began in 1970 and full occupancy of the flats was achieved by 1979. The flats have a strong geometric character, with strong lines and overhanging balconies forming a Ziggurat like structure. Landscaping was an important part of the design and aids the appearance of a quiet residential. The 19th century street pattern is replicated within the estate by the central pedestrian walkway, which also provides clear views along the buildings.	Modern	Conservation area	N/A	Moderate	N/A	N/A
PRM005	CH-02-003b	Historic Landscape	Primrose Hill	Mid-19th century public park added to Regent's Park in 1841 and opened to the public in 1842. A public park situated to north of Regent's Park. It was laid out between 1838 and 1843 as a northern extension to Regent's Park providing additional recreational space for the expanding city and to protect the comparative isolation of the elite villas. The park provides views across London and Westminster to the south and has coherent link with the planned rural setting of Nash's Regent's Park. PRM015	CH-01-008	Settlement	St John's Wood (Westminster and Camden)	The conservation area's spatial character derives from the relatively low density residential development set out along spacious tree-lined streets with generous plot sizes that create a feeling of space and openness without the need for formalised public squares and gardens. The area has a mixed setting of grand (palatial) houses surrounded by large open spaces and much more urban streetscapes of tree lined avenues of grand terraces and early to mid-20 th century mansion (apartment) blocks.
